| Long   | Wide   | Height  | Tire Rack Height Rises | Lifting Maximum Load | Maximum Tire Diameter Disassembly | Minimum Tire Diameter Disassembly | Use Pressure            |
|--------|--------|---------|------------------------|----------------------|-----------------------------------|-----------------------------------|-------------------------|
| 685 mm | 810 mm | 1100 mm | 1,600 mm               | 50 kg                | 750 mm                            | 490 mm                            | 4-10kg /cm <sup>2</sup> |

KAISER offers a time-saving and ergonomic workstation. It consists of four Pneumatic connections one each for Impact Wrench, Ratchet Wrench, Air Blow Gun & Tyre pressure Gauge. Pneumatic tools have designated space to keep that specific tool. This enhances not only the easy retrieval of tool while working on the job but also helps the technician to safe guard the tools. Express Bay trolley is accessible from all four sides making very easy for technician to reach out for specific tool.

Revolving Top with Tyre stand: It comes with 180° revolving top. The basic purpose of this feature is to make the reach of technician easy when working with dismantled tyre under the wheel of the vehicle.
