Detailing trolley PRO

MAIN FEATURES

The Trolley designed for detailing professional and amateur studios. Focus on convenience and functionality. Very practical and made of the highest quality materials will significantly increase the comfort of your everyday work. The right height, innovative solutions and stability guarantee are just a few of its advantages.

- ▶ Height of the trolley 80 cm (easy to slide, do not bend down)
- ▶ 3 Shelves with dimensions of 40x50cm and walls with a height of 10.5 cm
- ▶ 4 places / cavities for polishing machines
- ▶ 5 holes for brushes
- ▶ 2 bottles for bottles with coatings (43mm diameter fits bottles up to 100 ml)
- ▶ 2 places for mounting bottles. The absence of an inner edge allows you to avoid unrolled pressure on the atomizer when you pull the bottle
- ▶ 4 swivel castors (50mm) made of high quality rubber material, guaranteeing stability even on uneven surfaces
- ▶ 3 horizontal panels for stabilizing machines and hanging microfibers and bottles. The front panel is higher allowing you to create or stick an individual logo
- ▶ The "1" and "2" numbers are used to classify microfibres in activities requiring initial and final actions
- ▶ Seals securing the place of machine hanging

Tire Step

MAIN FEATURES

The TireStep is the perfect accessory for owners of midrange to large vehicles that need to gain quick, stable access to elevated spots on their vehicles. Designed primarily for SUVs, RVs and light trucks, the sturdy metal TireStep slips over either front or rear tires--adjusting to fit tires up to 12.5 in. in width--with a 22 in. x 10 in. step platform that adjusts to three separate heights. This step securely supports up to 400 lbs, allowing users easily reach spots on vehicles that were once out of reach without unstable ladders or stools. When not in use the unit folds away flat in its included soft storage bag which can be stored in your trunk, cab, hatch or trailer.

- ▶ Sturdy, durable tire-mounted auto step designed for use with SUVs, RVs and light trucks is great for working on engines, changing wiper blades, cleaning inaccessible spots and packing roof racks on tall vehicles
- ▶ Adjusts to three positions in both tire width and height
- ▶ Fits all tires up to 12.5 in.
- ▶ Entire unit is finished in a black powder coating, and its 22 in. wide x 10 in. deep stepping pad holds up to 400 lbs.
- ▶ Folds flat for easy storage in included soft storage bag
- ▶ Ideal for load equipment or luggage in the vehicle roof, clean the vehicle roof area
- ▶ Quick and ease of access to a vehicle roof
- ▶ Full metal construction provide a strong loading capacity up to 200kgs
- ▶ Ultra-wide step platform with non-slip surface guarantees a stable standing area
- ▶ The step platform height can be flexibly adjusted in 4 levels for fitting with the using of different heights
- ▶ Adjustable back hanger bar fits to different tire depths
- ▶ Fold flat for compact storage and transport when not in use
- ▶ Simple to use and no more effort needed: attach to tire directly without having to increase additional installation
- ▶ Suitable for most high shock absorbers SUV, SUV, cars, trucks and other vehicles with the diameter of tires more than 450 mm and the width of tires less than 360 mm.

■ ART No. 536133
